## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 4-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### ***Allowable Subject Matter***

2. Claims 1-3 and 13-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest a motivation for using a mixer that has a cooling zone with cooling means and a moistening zone with means for supplying a gas containing water vapor in combination with the other recited structure in claims 13 and 16, and the steps of cooling and moistening in combination with the other process steps in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the attached PTO-892 form disclose flue gas treatment devices and sorbent recycle systems.
